Class Curriculum

Start next lecture ›   WHERE Clause (4:36)

Section 1 - Introduction

✓   Introduction to the Course (7:27)

Section 2 - Set Up Training Environment

✓   Install Oracle Database Express (5:54)

✓   Install SQL Developer (3:00)

✓   Create User and Tables (4:28)

SQL Fundamentals

✓   SELECT Statement (3:30)

◐   WHERE Clause (4:36)   **Start**

○   ORDER BY (2:45)   **Start**

○   JOINs (8:55)   **Start**

○   COUNT and GROUP BY (6:28)   **Start**

○   Aggregate Functions (8:09)   **Start**

○   String Functions (8:47)   **Start**

○   Numeric Functions (6:44)   **Start**

○   Date and Conversion Functions (10:23)   **Start**

Subqueries

○   In Condition Subqueries (2:42)   **Start**

○   Uncorrelated Subqueries (1:52)   **Start**

○   Correlated Subqueries (1:40)   **Start**

○   Exists Condition Subqueries (1:44)

Start

Keys and Indexes

○   Primary Keys (3:44)   Start

○   Unique and Non-Unique Indexes (4:35)   Start

○   Unique Constraints (2:03)   Start

○   Foreign Keys (2:47)   Start

○   Database Catch-Up (0:34)   Start

Unions and Outer Joins

○   Expand the Data Model (3:00)   Start

○   UNION and UNION ALL (4:47)   Start

○   Outer Joins (6:35)   Start

○   Cross Joins (3:15)   Start

Updates, Deletes, and Inserts

○   Updates (5:57)   Start

○   Deletes (3:13)   Start

○   Inserts (8:45)   Start

Combined Examples

✓   Combined Examples
